

Technical Data Sheet | BP2HCS

Hard Covered Drum Spill Pallet | For 1 x Drum and/or Small Containers

The BP2HCS spill pallet, manufactured from medium-density polyethylene, is designed for optimal chemical containment and storage. Featuring a hard cover and a roller shutter door with a central lock, this robust unit ensures secure and accessible storage. It includes a 3-tier shelf, allowing for the organised storage of various containers above the sump. Fully compliant with UK regulations, the unit is delivered fully assembled and ready for immediate use. The base of the 3-tier shelf is pre-fitted to the pallet, with additional shelving and frames supplied for easy on-site assembly. The cover effectively protects the bund from rainwater, making it ideal for outdoor applications.

Product Specifications

External Dimensions (WxDxH)	1450 x 1020 x 1450mm
Unit Weight	Approx. 89kg
Sump	230ltr
UDL	650kg
UK Pack Size	1
Export Pack Size	1

Product Features

- Suitable for outdoor use as the cover protects the bund from filling with rainwater.
- Fitted with a central lock and two handles for easy opening and closing.
- 3-tier plastic shelves included for storing items & improved housekeeping.
- Manufactured from medium-density polyethylene.
- 1 x removable plastic grid included.
- Broad range chemical compatibility.
- Fully complies with all the UK Oil Storage Regulation.
- Colours available: Yellow
- Delivered fully assembled ready for use.

The unit is supplied fitted with the base of a 3-tier plastic shelf which is screwed to the pallet. The remaining shelving and frames are supplied inside for construction to avoid damage.
